

CSS Task: Styled Profile Card

Task Title: Build an Advanced Styled Profile Card

Task Requirements:

Create an HTML page that includes the following:

1. A main heading (h1) using **inline CSS**:
 - Text
 - Style: color red, font size 32px, font weight bold
2. Use **internal CSS** in the `<head>` to style the entire body:
 - Background color: #f0f0f0
 - Font family: 'Segoe UI', Tahoma, Geneva, Verdana, sans-serif
 - Text color: #222
3. Add a `<div>` with a class named `card` and use **external CSS** (`style.css`) to:
 - Set the card width to 400px
 - Apply a light background color or image
 - Add a solid border (3px, #007acc) and border-radius of 15px
 - Add shadow (box-shadow) for 3D effect
4. Inside the card:
 - Add an `<h2>` with `id='name'` and style it with color: #008000, font-weight: bold
 - Add a `<p>` with class `bio` containing a short personal description
 - Add a `<p>` with a quote or message styled with `dotted` border, custom color using `rgb`
5. Add a profile picture using `` inside the card:
 - Make the image width 100px, add border-radius: 50% (circle), and add a border around it

Final Deliverables:

- HTML file using inline and internal CSS.
- External CSS file (`style.css`).
- Include a profile image.
